Sturdy rail with refined curves

The Qurails 5600 track is a sturdy rail with refined curves that can be mounted on a ceiling. The curtains glide smoothly virtually without sound. A very popular track that can be used in a wide variety of situations, such as private homes, but also in office buildings and in the care sector.

- The ideal track for sheers, medium-heavy or heavy curtains.

- Easy to bend and exceptional quality.

- Can be forward or reverse bent in different radii.

- Compatible with the Qurails Flow System for regularly pleated curtains.

- Silent and smooth running, also round bends.

Standard colours

**RAL 9010 white**

RAL 9006 natural metallic

High quality, wear-resistant coating, highly colourfast, UV-resistant. Other RAL colours & special coatings on request.

Features

Material:	aluminium
Colour:	white, natural metallic
Dimensions:	22 x 30 mm
Weight profile:	492 gr/m
Mounting:	wall or ceiling

R>100 cm	1018

Flow

The Qurails Flow System keeps pleats in curtains consistent. It can be used with small and wide channel tracks and, because of the broad assortment of components, it can be integrated in hand-drawn, cord-pulled and electrically operated systems.

The Flow System can also be used with curved curtain tracks. For further information, see the Flow product data sheet.
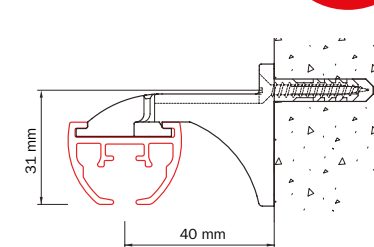

Specification guide
Material
- Aluminium EN AW-6060-T66.
- Powder coated in accordance with the Qualicoat standard.

Mounting
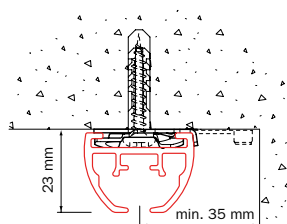

Ceiling mounting with ceiling mounting clamp 6050

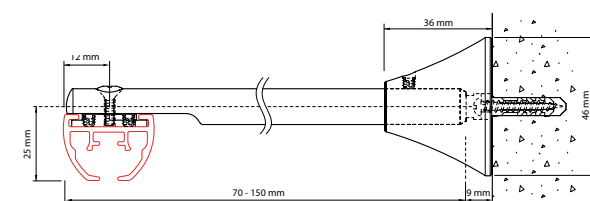

Wall mounting with bracket 6051

Ceiling mounting with bracket 6055-1000

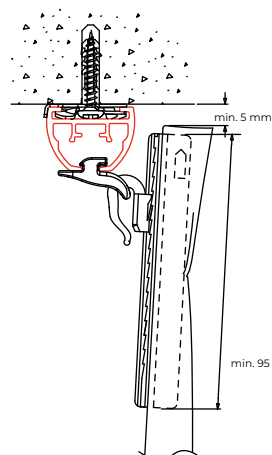

Mounting: turn & click into place

Concealed mounting, for example, in channel with bracket 6055-3100-N-040 when creating bends: cut the channel on the basis of the track supplied by Qurails

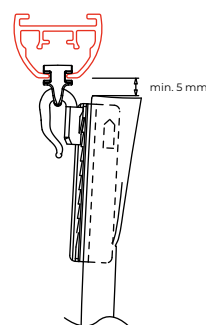

Wall mounting with adjustable extension bracket 6017
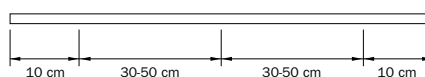

Example: confection with and without heading

5600 heading with projection glider 6010

5600 without heading with glider 4010

Mounting guideline

The distance between the brackets can vary depending on the following factors: the mounting surface (wood, concrete or plaster), the weight of the curtains and the curtain fabric production method, the specific application and the system usage intensity. General advice: with the curtains open, place additional brackets where the pleats bunch together. Also place additional brackets before and after bends.
